

ETERNITY

Sizing Chart

www.ernitygowns.com

BUST:

Hold the tape measure around the fullest part of your bust underneath the arms, but not underneath your bust.

WAIST:

Standing, measure at the narrowest point or at the midway point between the top of the hip bone and the bottom of the rib cage, usually 2 inches above your bellybutton.

HIP:

Standing, with your feet together, measure around the fullest part of your hips, even if that is at a point so low that you are almost at the top of your thighs.

HOLLOW TO HEM:

This measurement refers to the distance between from the hollow of your collar-bone to the floor.

Please take consideration that the fullness of the skirt and the height of your shoes may affect this measurement.
